

**PRODUCT TYPE: MCL-BH(60)****PRODUCT NAME: High gloss paper/ 60/ 58g white glassine liner****FACESTOCK:**

High gloss paper.

**SPEC.:**

WIDTH: 1070 mm

Weight:  $80 \pm 4$  g/m<sup>2</sup> GB/T451.2Thickness:  $0.080 \pm 0.004$  mm GB/T451.3**Printability:**

Suitable for a variety of ways of printing monochrome and color printing, the printing ink has a good performance.

Pay attention to control the ink viscosity, avoid too sticky ink coating fall off.

**Adhesive:****Permanent, acrylic based pressure sensitive adhesive.****Application:**

Products can has good adhesiveness, on many materials have excellent adhesion effect.

Widely used in food, advertising and drug label, etc

Initial Tack 8# GB/T 4852

180° Peel Adhesion 10 N/25mm GB/T 2792

Min. Application Temp. 5°C

Service Temp. -5°C ~ 60°C

**Shelf life:**

The durability of this product is one year, stored at  $23 \pm 2$  °C 、 reality humidity  $60 \pm 5\%$ , avoid direct sunlight.

**Liner**

White glassine release paper

**Uses instruction:**Weight:  $58 \pm 3$  g/m<sup>2</sup> GB/T451.2Thickness:  $0.050 \pm 0.005$  mm GB/T451.3

The above typical technical data are given based upon experimental testing result (only for reference). The material should be tested thoroughly under end-use conditions to ensure they meet the requirements of the specific application or notice our business department to provide future clarification or service. As the products are used outside of our control we can not responsibility for any damage which may be caused using the product. We reserve the right to modify the technical specification without prior notice.
